Volunteers sew masks for health workers facing shortages

By TAMMY WEBBER, DEE-ANN DURBIN and ANNE D'INNOCENZIO
Associated Press

CHICAGO (AP) — Bill Purdue waterproofs basements for a living, but he has spent the past few days in his buddy's Washington, Indiana, auto trim and upholstery shop cutting rectangles of cotton fabric that his friend sews into face masks.

Fashion designer Briana Danyele left Italy last month to return to her mother's Greer, South Carolina, home, where she has turned the living room into a mini sewing factory, making masks that she embroiders with the words, "We Got This!"

They're among scores of people answering pleas from hospitals, doctors and nurses so desperate for personal protective equipment amid the viral pandemic that they've turned to the public, saying do-it-yourself face masks are better than nothing.

Plan di 1.3 biyon florin pa atende cu crisis di Covid-19

ORANJESTAD – Prome Minister, Evelyn Wever-Croes a habri e sesion di tratamento di presupuesto su nota di cambio, reflehando riba e situacion y cambio cu coronavirus of Covid- 19 a trece cune den nos bida y actividad diario.

Igualmente riba e nota di cambio debi cu e situacion di Covid-19, ta haci cu e presupuesto aki ta uno pa atende cu e crisis aki. E no ta mas e presupuesto cu mester produci un surplus di mas cu 25 miyon florin a base di protocol firma cu Hulanda na aña 2018. Un di e prome cambio tin di haci cu full e reforma fiscal a wordo laga afo.

Mas bien, gobierno ta presenta un plan di contingencia financiero-economico cu un pakete di 1.3 biyon florin pa atende cu e emergencia cu e Covid-19 ta ocasiona na Aruba. Un cifra considerabel cu -segun fraccion di AVP- mester a atende cu e responsabilidad di control cu nan mester eherce como parlamentario, a pesar di e urgencia cu esaki ta demanda.

Premier Wever-Croes a bisa cu prome cu cos cu nan a haci pa bin cu e plan aki, ta inventarisa kico ta e magnitud di e crisis y tambe e necesidadnan cu nos pais mester pa por enfrenta esaki.

Presta placa

Pais Aruba lo mester presta for di mercado internacional placa y Hulanda ta dispuesto pa yuda den esaki. E lo ta conhuntamente cu Corsou y St. Maarten pa purba haya interes mas abao. Diabierna awor el a anuncia cu lo tin un reunion extraordinario di conseho di minister pa mira e caminda pa presta e suma grandi aki.

El a pidi pa parlamento por aproba e presupuesto aki pa asina logra e fiansa aki pa cuminsa "reconstrui nos pais," y asina por brinda asistencia social pa esunnan mas vulnerabel di nos comunidad. "Ya tin centenares di persona cu a bati na porta di gobierno," el a bisa.

El a expresa palabra di gratitud inmenso na parlamento henter pa compronde e situacion y duna cooperacion pa por yega na e punto di por presta e placa pa atende cu e situacion di crisis aki.

Igualmente e prome mandatario a solicita via un carta pa parlamento pa nan bay di acuerdo cu un parti di e fondo cu nan a inclui den e presupuesto 2018 pa atende exclusivamente cu e crisis di Venezuela, tambe por wordo uza pa atende cu e crisis actual di Covid-19. E destinacion di e placa aki lo ta pa cumpra y tin suficiente material y ekipo disponibel pa atende cu e prome necesidad di e crisis aki.

El a laga sa cu e reconstruccion aki ta tuma sacrificio tanto di gobierno cu lo baha su gasto, pero tambe di e sector priva, hotelero y trahadonan. El a bisa: "Tambe nos a haci un ehercicio pa mira con gobierno ta baha su gastonan. Y e resto nos ta bay presta."

E suma di 1.3 biyon florin -segun e prome mandatario- ta entre otro pa trece alivio cerca e trahadonan cu a perde entrada pa nan por haya asistencia financiero mensual di 950 florin di gobierno.

Pero tambe alivio pa comerciantenan y doño di trabou cu lo haya sosten financiero tambe. Tambe pa fortifica e fondo di AOV pa atende cu nos pensionadonan y AZV pa e gastonan medico por wordo cubri. Igualmente inversion lo wordo haci den nos finanzas y economia pa nos por lanta bek.

El a referi cu den e crisis aki cu apenas a caba di cuminsa rond di e Covid-19, tambe problema social y violencia domestico a aumenta. Gobierno a dicidi cu nan lo incentiva e social crisis plan y practicamente nan lo bin cu 'un crisis plan den e crisis plan aki.'

El a probecha pa haci un reconocimento na esnan cu ta traha den nos cuido di salud pa nan sacrificio grandi pa cuida di otro den un estado di crisis serio.

Aruba e pais mas golpea pa coronavirus segun S&P

E rating agency internacional Standard & Poors haci un analisis di e paisnan segun e efecto cu e consecuencianan di e coronavirus lo tin riba nan economia. Segun S & P, mas di 100 pais lo sinti e efectonan di e crisis aki cu segun e agencia lo surpasa cualkier epidemia den nos epoca. Segun WHO awor Europa a bira e epicentro di e pandemia, mustrando tambe un propagacion rapido riba henter mundo. E pais ariba na e lista como esun mas afecta ta Aruba.

E agencia a revisa tambe su proyeccion pa decrecimento global a causa di e pandemia, y ta kere awor cu e reduccion lo ta entre 1.6 – 2.1 punto di porciento mas abao cu nan calculacion di december 2019. E datonan inicial di China ta sugeri tambe cu e impacto di e medidanan di 'social distancing' lo ta hopi mas profundo di loke a anticipa anteriormente. E medidanan aki ta ser ehecuta agresivamente na un cantidad creciente di pais Europeo.

Sin embargo, e analisis di e agencia ta topa cu riesgo importante cu ta specificamente pa cierto sector. Un di nan ta e sector di biahe, cu den e ultimo decadanan a probecha mas cu tur sector di globalisacion. Actualmente, cu tanto pais cu ta cera nan frontera pa cierto tempo, a cuminsa un avalancha di cancelacion di vuelo mundialmente. Biahamento a cay drasticamente, golpeando aerolinea y compañianan di biahe, ademas e paisnan cu, un mas cu otro, ta depende di turismo di exterior.

Pa varios di e paisnan analisa, turismo ta un fuente clave di entrada na divisa, pa nan crecemento di GDP y pa entrada di gobierno. Y seguidamente e paralisacion di turismo internacional lo tin efecto tambe e parametronan di e paisnan afecta pa loke ta nan rating di credito.

Pa comprende cual ta e paisnan mas afecta, Standard & Poors a elabora tres modelo di scenario cu ta calibra den linea cu un reciente evaluacion di impacto haci pa IATA, e autoridad internacional riba tereno di aviacion. Ta bisa explicitamente cu e scenarionan no ta intenciona como proyeccion, pero ta simplemente pa duna un imagen di posible resultado pa entrada for di turismo pa un determinado pais.

E tres scenarionan ta di shock 'limita', 'extenso' yy 'extremo' cu caida respectivo di entrada di turismo di 11%, 19% y 27%. Den cada scenario ta presupone cu e bahada ta uniforme den tur pais. E modelo ta presupone cu pa 2021 entradanan di turismo ta completamente recupera. Esaki naturalmente lo mester mira ainda.

Resultado

E resultado di e test aki ta duna como resultado cu Aruba ta encabeza e lista, sigui pa varios teritorio di Caribe, manera Belize (3), Bahamas (5), Barbados (7) y Jamaica (9) entre e prome 10 pais. Curaçao ta aparece na puesto 11. Esaki ta ilustra un biaha mas e dependencia di e region di turismo.

Nota di redaccion

Mester tene na cuenta cu den caso di dependencia extremo manera Aruba e shock por ta mas severo cu e 27% di caida di entrada for di turismo. Ademas e suposicion cu pa 2021 e paisnan a recupera completamente por resulta no realistico, ya cu no tin claridad pa ki tempo e situacion, en todo caso na e paisnan cu ta genera biahe na escala grandi, Norteamerica y Europa. Den parlamento ayera Prome Ministro Wever-Croes a menciona e cifra di caida di GDP di 44%, loke na e momento aki no por descarta.

ORANJESTAD – Diadomingo ultimo a keda conoci den henter comunidad e caso di trahadonan di hotel Riu Palace & Riu Antillas, cu a wordo manda cas mirando e situacion cu Aruba y henter mundo ta pasando cu virus COVID-19, den e cual hende mester keda den cuarentena pa no wordo contagia cu e virus aki.

Ayera trahadonan a tene accion pa trece dilanti cu e decision cu gerencia a tuma di manda tur trahadonan cas bek cu motibo cu nan lo ta hayando vakantie, no ta corecto.

Bon Dia Aruba a haya un declaracion di un trahado di hotel aki, ken nos lo laga anonimo pa proteha su identidad. El a duna di conoce cu algun trahado a wordo manda cas cu fruta y berdura y otro articulonan cu tin chens di daña durante e ciere y trahadonan ta gradici e compania pa e gesto aki.

Awor, loke ta pasa ta cu trahadonan no ta di acuerdo cu e informacion cu a wordo duna tocante e pago. Nan ta wordo paga te diadomingo cu nan puntonan cu ta den sistema di ocupacion di e siman aki di e hotel. Desde diadomingo ultimo, tur trahado ta obliga pa bay vakantie cu pago sin punto. Di esaki el a comenta cu regularmente e compania tin un fondo pa paga vakantiegeld y semper a wordo paga cu un averahe di e aña pa ricibi e pago cu 'hour rates' y puntonan, pero e biaha aki no ta wordo paga manera mester ta.

Trahadonan ta wordo paga pa quincena di 15 pa 23 cu puntonan y dia 23 te fin di luna vakantiegeld sin punto. Esaki ta wordo aplica pa e siguiente pago di dia 5 di april.

E posibilidad di haya un bono di Pasco pa 5 di mei ta si e trahado ta solicita esey pa e compania y nan ta deduci e bono a base di si e trahado tabata di A.O, si a haya un warning of el a keda suspendi.

Ademas, el a trece dilanti cu despues di dia 5 di mei trahadonan no sa kico lo pasa cu nan. Nan a expresa cu Aruba y henter mundo ta pasando pa den un momento nunca antes bisto y mester ta flexibel pero, 'nan mester ta flexibel cu e berdad y no cu mentira', el a señala.

Tocante e caso aki, Hubert Dirksz presidente di Fundacion di Trahadonan di Aruba (FTA) a expresa cu hotel Riu Palace & Riu Antillas a bisa pa trahadonan bay cas desde ayera, pa motibo cu no tin trabou ni turistanan den hotel pa traha. Di esaki el a señala cu e problema a cuminsa na momento cu a exigi pa trahadonan firma cu nan ta bay cu vakantie.

Dirkzs a bisa cu trahadonan no mester firma e carta, pa motibo cu nan lo haya problema pa bringa e caso den corte despues. Eynan el a comenta cu nan por considera cu e momento aki no ta pa un persona bay cu vakantie, loke ta nifica cu esey no ta valido manera cu compania ta pone den carta.

"Trahadonan no mester firma, si ta necesario mester bring'e caso den corte" Dirksz a comenta.

Den un carta minister di Asuntonan Social y Labor, Glenbert Croes a duna di conoce dialuna ultimo, a menciona cu a dicidi di introduci un pakete un flexibilisacion pa un periodo di tres luna, esaki ta drenta na vigor 1 di april 2020, pa asina brinda tanto pa e trahado como e dunado di trabou e sosten necesario pa surpasa e periodo aki.

Di mesun manera, Gobierno di Aruba, entre otro ta duna e posibilidad na dunado di trabou y trahado pa aplica pa un compensacion for di e Fondo di Asistencia Social di Emergencia (FASE) pa cubri entrada di trahadonan cu como consecuencia di reduccion di oranan di trabou lo ricibi menos di Awg. 950.- pa luna.

Di loke ta trata Ley laboral, ta regarda cu e dunado di trabou mester mantene contractnan laboral vigente.

Autobus di Aruba ta confronta problema cu orario

ORANJESTAD – Autobus di Aruba a mustra nan preocupacion tocante orario di ruta, mirando cu tin hende cu mester bus un orario mas laat. Tambe ta mustra descontento pa motibo cu taxi pirata ta keda un problema y no ta sigur cu ta cumpli cu regla di higiena.

Vanessa Tromp, chauffeur di autobus a bisa cu nan ta confronta situacion dificil. Nan ta bisa cu pa motibo di coronavirus hopi di chauffeur a haya miedo y no kier subi riba caminda, sinembargo tin esunnan cu tin cu traha pasobra tin persona cu mester di nan cu ta traha na hotel.

"Tin un grupo trahando, nos tin tres transporte manera bus geel, bus grandi y Arubus." El a bisa segun a comprende cu e bus geel no lo core mas. "Arubus lo stop cu nan ruta di Noord pa 6:30pm y tin hende cu despues mester di bus pa nan yega cas", el a menciona

Pa e motibo aki Tromp a dicidi di traha 'e unico posibilidad cu tin' E ta sali for di cuarto pa 6 for di su cas, sinembargo e ta haya miedo pasobra e no a geef door cu su autobus lo ta riba caminda, cu consecuencia cu lo para nan y lo haya boet.

E ta purba di sali 6:00am pa asina por busca persona na tempo pa nan por yega nan trabou trempan. Pa motibo di henter e situacion aki, Tromp ta bisa cu taxi piratea ta sigui 'no ta stop' dilanti nan wowo.

Segun Tromp ta un problema mirando cu nan di transporte publico tin cu usa handsanitizers, mondmask, handschoen y nan tin cu desinfecta nan bus, anto a ripara cu e taxi pirata no ta cumpli cu locual ta e pasonan di higiena.

"Bo ta ripara nan no ta usa mondmask, algo pa desinfecta y tampoco nan mesun auto. Anto esey por trece cu e persona cu ta usa e taxi pirata por contagia mas hende", el a expresa. Despues nan ta haci uso di su autobus y e contiagio por aumenta.

Tromp ta comparti cu e ta tene na regla di cuido pasobra e tin famia di 70 aña di edad na su cas, teniendo na cuenta cu sistema immuun di otro cu por ta abou y e virus por yega na su cas. E ta bisa cu esey ta keda nan problema.

Tambe ta comparti cu e reglamento di gobierno pa persona cu perde trabou caminda lo ricibi 905 florin no ta cay pa nan, sino pa taxista, pasobra e turismo ta afecta nan trabou. Sinembarg e ta bisa a afecta trabou di autobus tambe, pasobra nan ta transport di hende cu ta traha den restaurant, hotel, security. Anto e areanan ey tambe a cera.

Segun Tromp ainda ta keda transporta e tiki hende den area di hotel. Pero ora cu esey keda baha nan tambe lo perde entrada y lo keda sin salario pa fin di luna. Nan ta mustra nan preocupacion pa cu esey 'pa awo nos tin cu sobrevivi'.

Otro chauffeur a duna di conoce cu pa nan e cambio di orario anochi ta keda fastioso pa motibo cu nan no ta yegando nan porcentahe di ganashi. Cu nan trabou di 6or di mainta te cu 7:30pm pero tin persona cu mester chauffeur despues di e ora ey.

Segun e chauffeur aki, kende a preferi di keda anonimo, e situacion ta problematico. Nan kier pa persona wak pa su mes y duna rapport pa minister, mirando e situacion cu nan ta pasando aden. Tur esunnan cu ta cay bou di departamento di transporte ta confronta e mesun situacion 'ken ta bay resolve?'

Awo cu situacion di virus tur e transporte publico a perde nan entrada. "Nos no por core bashi, pero tin hende cu ta stop di traha 7or di anochi cu nos por transporta nan; pero tin algun cu ta sali mas laat y no por duna servicio pa motibo di toque de queda."

Segun e chauffeur ta bisa cu a pesar cu niun auto mag di ta riba caya despues di 9or di anochi ta haci cu ora cu polis bay controla ta wak un autobus mas facilmente cu ora nan wak un auto di e taxi pirata.

Esey ta ocasiona cu nan lo por haya boet y mirando cu nan entrada no ta bayendo bon ta pone nan den un situacion fastioso. Nan ta bay manda un carta pa polis pa mustra nan punto di bista. Nan lo splica DTP pa e situacion y busca un solucion, pa duna nan un oportunidad di mas flexibel pa nan por yega un tiki mas laat.

Segun e chauffeur ta duna di conoce cu tin algun cu ta tuma e risico di toch transporta un persona pasa di ora. Esey a pone cu e chauffeur cu a haya su mes den problema. Nan ta pidi pa Departamento di Transporte Publico y minister di transporte haci cu nan algo pa nan situacion.

A pesar di urgencia pa aproba presupuesto 2020

Oposicion ta exigi pa no mina trabou di control di parlamento

ORANJESTAD - Cu un sala di parlamento casi bashi, asina a wordo trata y aproba presupuesto 2020. Algun parlamentarionan a abstene di bay sesion di tratamento di e presupuesto aki, debi cu nan a bay exterior recientemente y nan ta den cuarentena actualmente.

E presupuesto trata ayera a cambia substancialmente den e nota di cambio cu gobierno a introduci pa atende cu e situacion di emergencia nacional debi na e presencia di e coronavirus na Aruba.

For di inicio principal fraccion di oposicion AVP a bisa cu lo sostene gobierno cu aprobacion di su presupuesto. Y a pesar cu e debatenan no tabata esun custumbra ora di trata presupuesto di pais Aruba, toch a surgi algun discrepancia. Particularmente ora cu den su punto di ordo, parlamentario independiente, Daphne R.Y. Lejuez a pidi e documentacion di nota di cambio di e presupuesto pa por studi'e un rato prome cu nan ta bay na e preguntanan. Esaki debi cu presupuesto 2020 cu inicialmente nan a ricibi, a resulta totalmente cambia cu 1.3 biyon florin pa atende cu e crisis di Covid-19. Presidente di parlamento, Juan "Ady" Thijsen a reacciona energicamente bisando cu "aworaki no tin tempo pa hunga politiek", ya cu e mes a manda pa tur parlamentario e nota di cambio aki un dia prome.

Di su banda parlamentario Richard Arends ta indica na presidente di parlamento cu a pesar cu tin urgencia pa presupuesto wordo aproba, esaki no ta kita cu como parlamentario, nan mester cumpli cu nan trabou di control. Es mas el a laga sa cu e tin su preocupacionnan serio riba e 'formato nobo di e presupuesto.'

El a expresa su comprension pa henter pueblo di Aruba, ya cu e situacion cu nos ta bisando aden ta uno di nerviosismo y panico. "Pero nos mescos cu polis, mescos cu enfermeronan, awe nos tambe ta asumi nos rol como parlamentario, y si tin un cos cu semper mester keda draai ta nos democracia," el a bisa.

El a pidi garantia riba e concepto di e nota di cambio cu nan a ricibi un dia prome, si esaki ta e mesun cu nan a ricibi ayera mainta. Tambe el a puntra si e nota di cambio aki a conta cu e conseho di Raad van Advies; y tambe rapport di Banco Central Aruba (BCA). A pesar cu eventualmente no tabata e momento pa trece e puntonan aki dilanti, pero e ta urgi gobierno pa pensa riba e posibel consecuencia contabel cu e fiansa di 1.3 biyon florin por tin, y cu bo no por controla.

Parlamentario Alvin A. Howell di fraccion di POR a anuncia e entrega di dos mocion.

Mientras cu parlamentario Ricardo Croes di RED a bisa cu e no ta duna niun 'step pa-tras' riba su interpretacion di Statuto di Reino. Fundamentalmente el a referi categoricamente cu e responsabilidad y garantia di nos bienestar ta cay primeramente riba gobierno di reino, ya cu Aruba no ta un estado den e mundo aki, sino Reino Hulandes ta un estado.

Fia placa ta necesario...

Us'e bon ta e cos...

Manera tabata di spera, e debate den parlamento tabatin un tono modera, aunke aki aya no a falta e picardia politico. Pero en general tur hende tabata consciente di e momento crucial na unda nos ta como pais y cu busca solucion ta mas importante cu e diferencianan di opinion. Esey no por ta otro tampoco pasobra 'the stakes are high'; no lo dura tanto pa nos agota e reservanan di divisa cu nos tin. Esey no ta un problema pa gobierno so, sino pa nos tur. Cu e motor saca for di e vehiculo cu yama economia, nos a keda cu e demas piesanan cu no por produci hopi riba nan mes. Loke tabatin riba mesa den parlamento tabata anto ta nada mas cu un plan 'open-ended' di rescate financiero pa e aña aki. A pone un suma y ban spera cu e ta suficiente. Pero aki nos ta toca un punto importante: ta facil pa aproba un suma cu mester bay busca den exterior, cu ayudo di Hulanda semper, pero kico ta bay haci cu esaki?

Claro cu no por spera di gobierno ainda cu ta conoci te den detaye na kico e placa ta destina, pero si ta importante pa hiba un maneho cla y transparente segun cu ta dispone di e placa aki. Pasobra cuanto cu finalmente ta fia, ta pa nos paga en todo caso. Y nos punto di salida no ta di gaba mes, esey nos tur sa. Nos debe tabata caba mas di cuatro mil miyon florin y esaki ta bay aumenta drasticamente, te na mas di 5.500 miyon florin, loke ta cerca di 100% di GDP. Y e no ta e unico preocupacion cu nos tin, pasobra pa por paga bo mester tin cu locual bo ta bay paga. Y esey ta requeri un recuperacion completo di nos economia, y mas... Na e momentonan aki ningun di nos por sa kico nos tin nos dilanti den e proximo añanan. Un recuperacion completo di turismo, cu e fluho di custumber di turista por ta algo cu lo tuma varios aña pa yega na e punto ey, si acaso. Esaki ta obliga nos di no solamente dedica atencion na e maneho di e crisis actual, pero tambe cuminsa crea plan con pa sigui desaroya nos economia, tumando na cuenta tur e lesnan cu nos ta haya ultimamente. Laga nos analisa un rato algun aspecto.

Nos turismo a haya un golpi casi mortal na un momento cu tabata cuestiona severamente caba un expansion indesea y innecesario di e cantidad di camber di hotel y condominium. E proyectonan cu no a yega na fase di construccion lo haya basta problema pa por continua. Nos mester lamenta esey? O nos mester considera e situacion actual, den filosofia di Johan Cruyff, como 'elk nadeel heb z'n voordeel'? Por ta cu esaki ta e momento pa cuminsa pensa den otro direccion? Y cu otro direccion nos no ta referi na e refineria obsoleto cu nos tin na San Nicolas, pasobra mundo ta pasando den otro realidad cu ta e competencia sin frontera cu tin den sector global di petroleo. Esey riba su mes tin su parti favorable tambe den forma di prijs abao di combustible, pero ta haci mas improbable ainda cu algun dia e instalacionnan ey por haya un bida nobo.

Nos futuro tampoco ta parce nos den cultivo di cannabis, mirando e desaroyo grandi cu ta tumando lugar den nos region cu e cultivo aki, sin cu realmente nos tin bentaha comparativo di algun importancia. Un futuro parcial por tin den desaroyo di horticultura selectivo, cu tin cierto iniciativa caba tumando lugar. Nos lo ta pendiente di e plannan cu apenas ta desaroya actualmente.

Un di e puntonan clave cu ta keda despues di e debate di ayera ta e pregunta kico gobierno ta bay haci cu su gastonan. Ta dificil pa imagina cu henter e payroll di en total Afl. 733 miyon pa gasto di personal ta keda intacto. Na repetido ocasion, ayera tambe, Prome Minister a bisa cu nos tur mester haci sacrificio y ta esey ta spera di su banda. Cuminsa cu elimina e cuatro beneficionan cu e empleadonan publico ta un bon comienso; al fin y al cabo, nos no mester fia placa pa paga esey tambe.

Tambe ta importante cu, awor mas cu nunca, bin realmente medida pa haci bida mas facil pa opera un negoshi. Nos ta bayendo pa dos aña y mey di e gobierno aki y nos no a mira realmente nada ainda den e direccion aki. E 'red tape' a keda di mesun color. Nos no ta papia aki solamente di incentivo bon pensa y ehecuta, sino tambe di agilisacion di e procesonan burocratico, cu ta pertenece na epoca medieval.

Tin hopi cos por cambia den e temponan dificil aki, pa nos tur. Sector priva ta obliga di traha mas tanto posible for di distancia, loke por trece cambio positivo y mas economico di organisa trabao. Envez di tin gran parti di su forza laboral sinta na cas, ta tarea di gobierno pa cuminsa organisa di otro manera. Tin hopi cambio den proceso administrativo cu no mester warda e famoso e-government bira realidad. Banda di e 'crisis management' di e momento mester pensa pa futuro tambe.

A denuncia na WHO ineficiencia di Gobierno Nicaraguense pa COVID-19

MANAGUA (EFE/CNN) – Un coalicion opositor Nicaraguense dialuna ultimo a denuncia gobierno di Daniel Ortega na Organisacion Mundial di Salud (WHO) y organisacion Panamericano di Salud (OPS) pa no adopta medidanan pa enfrenta e pandemia di coronavirus, y tambe pa promove actividadnan cu ta expone su ciudadanonan pa e contagio.

Den un carta publico, e denomina Coalision Nacional, integra pa shete movemento civico y partido politico, tambe a critica e representante di WHO/OPS na Managua, Ana Emilia Solis Ortega, pa apoya e politicanan di Gobierno pa identifica casonan posibel di COVID-19.
“Nicaragua a traha den aislamento di servicio di salud, fortaleciendo e vigilancia epidemiologico y a bin traha cu Red di Salud Comunitario pa por identifica casonan posibel cu por presenta na nivel di comunidad”, dialuna ultimo e representante di WHO/OPS a bisa na Managua.
Coalicion a califica di desafortuna cu autoridadnan di WHO/OPS na e pais a compaña Ehecutivo den un actuacion iresponsabel y no ta haci nada pa cambia e actuacion criminal di Gobierno di Ortega.
Na su huicio, e bloke opositor ta bisa cu Ehecutivo ta mantene un politica di secreto y ta nenga riba situacion di COVID-19 ‘cu no ta contribui pa enfrenta e crisis sanitario cu ta menasa’.
Entre otro, nan a critica Gobierno pa motibo cu ‘te ainda nan no a pone medidanan pa enfrenta e situacion’, tampoco nan a informa riba e accionnan pa prepara e condicion na unidad di salud, ni nan ta orienta riba medidanan preventivo.

Venezuela: Producto agropecuario no ta yega mercado

(LaPatilla) – E problema creciente di transporte ta cuminsa afecta seriamente e posibilidad di trece producto agropecuario na e centronan mayor di poblacion. Escasez di gasolin y diesel ta afecta e disponibilidad di transporte di prome cu e crisis di coronavirus a inicia.

Segun dato acumula Venezuela na 2018 tabatin 4,1 miyon vehiculo, di cual 76% tabata particular, 16% transporte di carga, 4,8 % motocicleta, 2 % transporte publico y 1,2 % taxi.

Di e cantidad aki, 57 % tabata operativo (2,33 miyon vehiculo) ainda, mientras e situacion economico cu a empeora despues di e fecha ey ta duna e suposicion cu e porcentahe di vehiculo operativo ta mas abao. Riba esey ta bin e problema di escasez di combustible, cu ta mas severo den e areanan rural di unda e productonan mester sali.

E despacho di hortaliza di areanan manera La Grita, den estado Tachira, tecnicamente ta paralisa pa e falta di combustible cu ta impedi distribucion na e centronan di mayor poblacion na centro di Venezuela.

E Bolsa Agricola di La Grita a para totalmente pasobra e productornan chikito y mediano no por saca nan produccion, segun denuncia di Robert Maldonado, cu ta pertenece na e red di trabao di agricultura y ta Defensor di Derecho y Garantia di e Productor Campesino.

Maldonado a usa Twitter pa demostra cu imagen e falta di productor na e punto di acopio unda ta comercialisa mas di cinco mil tonelada di hortaliza cu ta sali rumbo pa centro di e pais.

Sociedad Civil Ganaderos de Machiques na Zulia (Gadema) a informa cu e inventarionan di e fincanan ta creciendo, no pa mas produccion sino pa falta di transporte pa e escasez di combustible den pleno cuarentena pa COVID-19. E productonan acumula ta bay perdi pa vencimento loke ta un perdida grandi pa e productornan.

Puerto Rico: 39 caso di coronavirus, dos morto

(ElNuevoDia) – Departamento di Salud di Puerto Rico a confirma ayera cu e casonan positivo di coronavirus a aumenta di 31 pa 39, mientras cu ta lamenta dos morto. Di acuerdo cu un comunicado di prensa, esaki ta di cinco resultado positivo obteni pa Laboratorio di Salud Publico y tres pa Hospital di Veterano.

En vista di esaki director di e task force medico di coronavirus, doctor Segundo Rodriguez Quilichini, a urgi e ciudadanonan pa nan keda na nan cas pa por contene propagacion di e virus, ya cu e cantidad di persona infecta por ta mas halto.

"Esaki ta implica cu na e momento aki na Puerto Rico nos tin aproximadamente entre 195 pa 390 persona den comunidad sin identifica, y e personanan aki tin e capacidad di contagia otronan di forma exponencial. P'esey, nos ta pidi pa bo keda bo cas. E meta di tur na Puerto Rico mester ta pa reduci e propagacion di e virus aki na e minimo posible. Nos tur mester uni como pueblo den e esfuerso aki," e medico a bisa.

E casonan positivo nobo di Salud ta coresponde na cuatro homber y un muhe. Dos di e hombernan ta di e region metropolitano y tin 36 y 49 aña, respectivamente.

Otro di e hombernan di region Caguas y tin 64 aña, mientras cu e otro ta di region di Bayamon y tin 30 aña. E muhe ta di Fajardo y tin 50 aña. E tres resultadonan positivo di Veteranos ta trata di homber di 66, 69 y 34 aña, respectivamente. Salud a revela cu te na e momento aki a realisa 280 prueba, di cual 222 tabata negativo. Tin 35 prueba pendiente ainda.

Venezuela: Sector priva no por retira personal y no ta haya ayudo

(LaPatilla) - Camara di Comercio di Caracas a haci un yamada na autoridadnan municipal di e area metropolitano di Caracas na beneficio di e ciudadano, pa yega na un colaboracion entre entidadnan publico y priva, en vista di e situacion actual cu e brote di coronavirus.

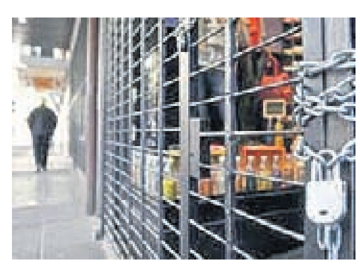

E situacion den cual e pais ta pasando den materia sanitario producto di e pandemia deriva di e coronavirus, ta exigi adopta un serie di medida colateral di naturalesa economico y social, cu t permiti enfrenta e situacion cu ta menasa salud y bienestar di tur Venezolano.

Un di e medidanan inevitable adopta ta e orden di keda cas, restringi e actividadnan economico habitual den e empresanan, salvo cierto sector di interes publico di servicio, aunke cu cierto limitacion, loke ta genera un caida den actividad productivo y, como consecuencia, un reduccion di e entradanan causa pa e caida den consumo di bienes y servicio, cu ta sirbi como base pa calcula impuesto procedente di e actividadnan economico. Esaki ta implica perdida grandi pa sector priva, pero pa sector publico tambe.

Esaki ta urgente tumando na cuenta cu gobierno di Nicolas Maduro a ordena diadomingo pasa tur empresa na Venezuela pa no retira trahador te fin di año y tambe na e banconan pa suspende cobro di credito pa seis luna pa enfrenta e crisis.

E companianan di telefonia no por suspende servicio pa falta di pago bao e pandemia. Pero Maduro no a suspende e cobro di impuesto, ni a ofrece incentivo fiscal na e empresanan, contrario na loke otro paisnan den region a haci.

Na television estatal Maduro a declara cu "nos tin e poder y decision absoluto pa protege tur puesto di trabao di e pais, y di protege funcionamento di tur empresa y comercio." E ultimo aspecto aki no a haya clarificacion di gobierno nacional.

Edwina Henriquez:

'Libertad di expresion'

ORANJESTAD – E derecho di libertad di expresion ta encera tambe e derecho na haya informacion for di prensa independiente di gobierno. Cada persona por tin nan opinion tocante e hecho cu prensa a wordo prohibi di haci nan trabao ariba caminda durante e toque de queda.

Ami como e unico Abogada Internacional pa Derechonan Humano y Democratisacion den Caribisch Nederland tin su propio responsabilidad di sali na defensa di cualkier ciudadano ora cu su derechonan ta wordo viola; ta p'esey mi a haci tur mi sacrificionan pa asina mi por tin un diploma prestigioso aki y mi no ta ria pa ningun Gobierno ni pa ningun hende na e mundo aki pa asina mi haci mi trabao; si e Gobierno of e personanan concerni ta gusta of nan ta laga. Esaki ta mi trabao y mi tin intencion di sigui hacie no matter what. Awe e ta di prensa di Aruba, mañan e por ta di Bo. Mi kier recorda tur hende cu e libertad di expresion no ta solamente Bo derecho di duna informacion, pero e ta tambe Bo derecho di ricibi informacion for di prensa independiente di Gobierno.

Robert Arends:

'Den crisis, un gobierno di crisis?

ORANJESTAD - Aruba mester awor cu e crisis aki , poco (no mas cu 5) Minister bon prepara cu no debe ni partido politico ni sponsor nada , ripiti nada , y cu tin e curashi pa tuma decisionnan na interes general di Aruba.

E Gobierno di crisis aki mester haya aprobacion publico di partidonan politico cu nan ta keda e Gobierno nobo tambe despues di e proximo eleccion di moda cu nan ta haya suficiente tempo pa reorganisa Aruba.

Nan mester keda encarga tambe cu organisacion di e proximo eleccion sin e circo di propaganda di partidonan apolitico pero cu TV (igual cantidad di ora) na nan disposicion pa informa pueblo. Habri sin nada di sconde y sin influencia di exterior.

Cu un Gobierno di crisis , partidonan politico mester reflexiona si nan lo cambia nan representacion den Parlamento , poniendo nan ex-Ministernan y ex Parlamentarionan(cu experiencia) den Parlamento y asina habri caminda pa logra apoyo general den controla Gobierno y den aprobacion di e leynan necesario.

Pa pensa ariba sin miedo

Arubiano no infecta cu Corona virus, no por bin su pais bek

ORANJESTAD - Sharmila Richards ta un Rubiano bibando na Hulanda pa 11 aña,
Ora a yega pa mi bin mi pais bek pa biba, pues ma regel tur mi cosnan pa sali foi Hulanda. Ma boek y paga pasashi one way ticket pa Aruba dia 3 maart 2020. Dia 9 maart mi a schrijf uit y dia 17 maart mi mester a bula pa Aruba.

Dia 17 di maart 2020, ma bay Schiphol y yega tur na gate y eynan KLM a nenga mi rotundamente pa subi e vuelo. Ni mas con mi a splica nan cu mi ta naci na Aruba, mi ta uitgeschreven di Hulanda y cu mi ta bayendo Aruba pa biba, nan no a laga mi subi vuelo, paso mi no ta un "ingezetene" di Aruba.

E situacion di mi awor aki ta lo siguiente

- mi no ta inscribi na NL mas, pues kier men mi no tin adres/ zorgverzekering/entrada, nada. mi no tin derecho riba nada akinan mas.
- mi no por schrijf in ningun caminda tampoco
- mi a tuma contacto cu Arubahuis, e instancia cu ta suppose di yuda mi, pero nan a laba man y bisa mi cu nan no por haci nada pa mi
- mi a tuma contacto cu mi huisarts, GGD, RIVM y gemeente Rotterdam y tur a bisa mi cu nan no por duna mi ningun verklaring of test pa coronavirus pasobra mi no tin sintomanan.
- mi a papia cu assistent di ministro Oduber y ma splica cu mi no ta mind wordo getest/ poni den cuarentena pa coronavirus paso mi sa cu mi ta cubri boa di e sanger di Jesus......Amen

Pa medio di e medio ki mi kier a haci un apelacion na gobierno pa laga mi bin mi pais bek. Mi No ta infecta!!! y si gobierno no kier core e risico test mi numa.

Instancianan na Hulanda no ta laga mi haci e test pa coronavirus, locual kiermen cu mi no por prueba cu mi no ta infecta.

Te ainda mi no a tende nada mas di e assistent di ministro Oduber. Logicamente nan ta mas preocupa cu otro asuntonan.

Pero cu Dios su poder, lo mi no stop di bringa mi caso. Lo mi usa tur e medionan di comunicacion pa pone luz riba e situacion ki.

BONDIA ARUBA

Despues di casi un aña no a ruim op asfalt laga atras

SANNICOLAS - Ta bay haci casi un aña cu e departamento di gobierno DOW a rosa e caminda di Diamantbergweg pa drecha esaki. E caminda a ser rosa y e asfalt bieu a ser benta bandi e veld di bala na Yuanamorto esaki ta basta sero di asfalt bieu.

E caminda di Diamentbergweg tabata den estado hopi malo pa bastante aña, esaki ta un caminda principal cu busnan ta core. Despues di basta aña gobierno a dicidi di drecha varios caretera na Aruba incluyendo e caminda aki. Pero ora a rosa esaki a pone e resto di asfalt bieu banda di e veld aki y nunca mas a bin haci esaki limpi. Esaki ta un mahos bisa den nos naturalesa y siguramente pa esunnan cu sa usa e veld aki. Den e parti di mondi aki ya caba tin basta hende bentando sushi rond lagando un mahos bista atras. E pregunta ta ki dia lo haci esaki limpi mirando cu esaki no ta parti di e naturalesa.

Prevencion di Abuso di Mucha durante Crisis di Coronavirus

ORANJESAD - Un hogar no ta un espacio sigur pa tur mucha. Cas ta caminda un mucha ta supone di lanta sigur y contento, pero e realidad ta cu esaki no ta e caso di tur mucha. Varios mucha ta wordo exponi na abuso di mucha y violencia domestico den nan mesun seno familiar.

Durante temporada cu scol ta cera, p.e. vakantie grandi y dianan di fiesta, e casonan di abuso di mucha ta aumenta. Pa algun mucha nan escapatorio ta nan scol y nan maestronan ta nan persona di confiansa cerca kende nan ta busca apoyo.

Violencia na cas normalmente ta tuma luga mas tanto den oranan di anochi, e ora cu mayoria biaha tur miembro di famia a caba di traha y ta na cas. Durante e dianan aki nos lo keda mas tanto paden pa practica distanciamento social. E chens pa abuso di mucha y violencia domestico lo t'ey 24/7.

Nos sa cu stress ta un di factornan di riesgo principal pa abuso di mucha, specialmente abuso fisico, abuso verbal & emocional. E situacion actual di Coronavirus ta trece stress cune ariba diferente aspecto, p.e.:

- Stress financiero
- Stress y preocupacion di wordo kita for di trabou
- Stress di e exceso di informacion tocante Coronavirus
- Stress di no tin hende pa wak pa nan yiu (oppas)
- Stress di tin mucho hende na cas na mesun momento
- Stress pasobra mayornan no tin tempo pa nan mes

E ta normal pa sinti stress den e dianan aki pasobra nos no tin siguransa di varios cos y kisas esaki ta duna nos un sentimento di impotencia.

Kico nos por haci pa preveni abuso di mucha durante e crisis di Coronavirus?

Acerca famia & amigonan pa apoyo
E ta importante pa mantene conexion cu nos sernan keri durante e temporada di cuarentena. Conexion cu nos sernan keri lo evita cu nos lo sinti nos mes isola of solitario. Door di keda den contacto cu nos famia y amigonan, nos lo por reduci stress & ansiedad den e temporada aki. Como cu nos ta practicando distanciamento social e lo bira dificil pa conecta na e mesun manera di semper, pero un yamada caba lo por haci un diferencia grandi. Mayornan por papia tocante nan preocupacionnan cu sernan keri y pidi nan pa ayudo y conseho.

Cuida otro
Parti e tareanan di cas y haci palabracionnan claro na cas. Corda cu e ta importante pa mantene e palabracionnan. Sea consecuente. No laga frustracionnan y stress escala. Puntra pa ayudo na tempo. No tene miedo of berguensa di pidi yudansa cu tareanan di cas. Pa mayor cu tin pareha haci palabracionnan di e tareanan di cas y e cuido di e muchanan. E ta importante pa cada mayor haya un tempo pa nan mes tur dia. Pa mayornan cu no tin pareha, pidi ayudo di un persona den bo circulo familiar of un amistad.

Personanan di confiansa
Tin mayor cu mester traha apesar di e circunstancia. Mirando cu scolnan ta cera mayornan ta haya nan mes inesperadamente ta busca un persona pa wak pa nan yiu. Tin algun mucha ta keda cerca un famia, mayoria biaha un wela of un welo. Semper e ta importante pa mayornan percura pa e mucha keda cerca un persona di confiansa. Abuso sexual di menor 90% di biaha ta pasa door di un persona cu e mucha conoce. P'esey e ta importante pa keda extra alerta pa e señalnan di abuso sexual. Si un mucha no ta sinti comodo pa keda cerca un hende reconoce esaki y pensa ariba un otro solucion, un otro persona di confiansa.

Mayornan tambe por haci uzo di un 'safe word'. Esaki ta un palabra cu e mucha y e mayor so sa. Ora e mucha bisa e palabra e ta un indicacion cu e mucha mester di e mayor su yudansa inmediatamente. Mayornan por yama e persona cu ta cuidando nan yiu na oranan inespera pa asina check con ta bay cu e mucha. Asina mayornan por wak con ta bayendo cu e mucha durante nan ta na trabou.

Bisiñanan lo por hunga un rol primordial
Victimanan di abuso di mucha & violencia domestico lo mester conta cu e apoyo di bisiñanan pa señala abuso di mucha y violencia na cas. Si un persona scucha of mira algo e ora e mester bisa algo. Na momento cu señala abuso di mucha bo no mester keda keto, bo no mester bira cara. Abuso di mucha ta un asunto di nos tur. E ta responsabilidad di cada adulto pa percura pa e bienestar di nos muchanan.

Si bo ta un bisiña preocupa of si bo a señala abuso di mucha, acerca e famia y puntra nan con ta bayendo. Splica nan cu bo ta sinti preocupa pa loke bo a scucha y/of mira. Ofrece bo yudansa si esaki ta necesario.

Instancianan pa acudi pa ayudo
Pa mayornan den necesidad pa haya apoyo y sosten tuma contacto cu telefon pa mayor 'Tienda di Educacion' na 161

Pa mayornan cu mester conseho y tips den lantamento di un mucha entre 0-12 aña yama Fundacion Pa Nos Muchanan na 588-0856

Pa conseho tocante abuso y negligencia di mucha yama Bureau Sostenemi na 588-1010

Pa informacion tocante abuso y negligencia di mucha e-mail Fundacion Respeta Mi na respetami@setarnet.aw of fundacion.respeta.mi@gmail.com

Si abo ta pensa cu e bida di e mucha of di otro persona ta na peliger den e cas yama central di polis na 100

Pa un victima busca ayudo den e dianan aki cu nan lo ta cera paden, por ta dificil. E victima lo ta cera un gran porcion di dia cu nan (posibel)abusado. Esaki lo hacie dificil pa nan yama pa sosten y ayudo. P'esey nos no por pone enfasis suficiente cu e ta importante pa bisiñanan keda alerta pa e señalnan di abuso di mucha y violencia domestico. E cambio & stress cu e Coronavirus ta trece cune ya caba por ta un experiencia traumatico pa un mucha, no laga abuso di mucha y violencia domestico bira un otro trauma. Keda safe, proteha nos muchanan!

‘Mocion pa parlamentario y ministernan contribui cu 1000 florin for di nan salario’

STATEN VAN ARUBA
Ingek. 24 MAR 2020
Volgnr.: 23/5 89/19-20

PARLAMENTO ARUBA

Mocion

Parlamento di Aruba, den reunion publico, awe dia 24di maart 2020.

CONSIDERANDO:

- Cu e efectonan di Coronavirus na Aruba mescos cu rond mundo ta devastador;
- Cu pa frena e contagio Gobierno di Aruba a dicidi di cera nos frontera;
- Cu un cantidad di compania a haya nan mes obliga di manda un cantidad di trahador cas;
- Cu debi na esaki un cantidad di famia a keda sin entrada;
- Cu Gobierno a dicidi di brinda un apoyo di AWG 950,= pa luna na esnan cu a perde trabou of entrada;
- Cu tanto parlamentario como ministernan tin un entrada fiho;
- Cu nos a huramenta pa representa pueblo y haci nos best pa un miho porvenir pa nos hendenan;
- Cu enfoke di Gobierno ta pa tin ser humano central.

TA DICIDI:

Di urgi tur minister y parlamentario pa haci un contribucion di AWG 1,000.= pa luna for di nos salario durante un periodo di tres (3) luna (april, mei y juni) pa bay directamente den e fondo di ayudo pa nos hendenan cu a perde entrada of nan trabou, demostrando asina cu nos hendenan ta central pa nos.

Y TA PASA PA ORDO DI DIA

ORANJESTAD - Parlamentario Alan Howell durante tratamento di presupuesto di Pais Aruba den Parlamento a mustra riba e echo cu cosnan na mundo a cambia y situacion na mundo no ta e miho. Esaki a conduci na un dia historico unda un reunion publico pa prome biaha ta wordo hiba sin colega y sin publico presente. E ta considera e situacion actual uno unico unda tur mester mustra nan responsabilidad y sosten, incluyendo parlamentarionan y ministernan.

Teniendo na cuenta e situacion den cual nos pais ta aden, Howell ta considera importante pa rond af e reunion di presupuesto pasobra no tin mucho ora pa discuti riba dje. “Mundo ta den crisis, nos pais ta den crisis. Parlamento y Gobierno mester sa di tuma e miho decisionnan pa salud di nos hendenan pa nos salba nos pais”.

Mas aleu el a bisa cu e ta admira e decisionnan y pasonan firme cu Prome Minister y su Gabinete ta tumando pa nos comunidad y mester ta solidario pa hunto nos por bringa e virus aki cu ta asotando mundo henter. “Full Aruba mester ta solidario pa sali for di e crisis aki, ta importante pa e presupuesto aki pasa cu inicialmente mester a pasa cu un surplus, pero debi na e crisis mester presenta uno cu un deficit, cual ta comprendibel tambe. Den momentonan di crisis nos lo wak e caranan di berdad, awo nos mester para firme y solidario cu otro. Hopi biaha ta facil pa grita cu pueblo mester hala faha mara, cu pueblo mester coopera y pa pueblo carga tur responsabilidad”.

Pesey Alan Howell ta bisa cu ta nos tur tin cu carga e responsabilidad aki, nos tur mester ta uni y solidario, no ta solamente e homber chikito so mester sintie of e mama humilde mester ta preocupa con pa paga su cosnan of entidadnan bancario, comercial of di utilidad.

“Si di berdad nos ta papia cu pueblo mester ta uni, mi ta para cu aki den Parlamento mester mustra pueblo cu nos tambe ta solidario cu nan. Unda e solidaridad ta di nos como representante di pueblo ta? Mi ta kere cu cada 21 parlamentario y tur minister di Gabinete ta lider riba nan mes. Bo mester ‘lead by example’. Nos tur mester contribui y nos tur tin cu sintie.

Pa tal motibo ta gradici Dellanire Maduro, Partido POR y colega independiente Daphne Lejuez pa firma un mocion pa demostra cu nos Parlamento tin nos pais na pecho, cu nos ta solidario cu nos hendenan di berdad. Mi ta kere cu asina aki nos ta mustra e responsabilidad pa pueblo, nos ta demostra asina cu nos ta para banda di nan. Ta keda na cada ken pa demostra nan sano huicio y ta spera di por haya e sosten di mi coleganan”.

E mocion ta pidi pa cada parlamentario cada minister contribui cu mil Florin pa luna for di nan salario pa un periodo di 3 luna (april, mei y juni) cu e fondo di ayudo pa esnan cu a bay atras den nan salario of a perde nan trabou.

Parlamentario Alan Howell ta enfatisa na final cu e ta spera di por conta cu sosten di su coleganan parlamentario pa logra e ayudo aki pa esnan cu mas tin mester. “Nos mester ta uni y mester demostra cu nos t’ey pa nos hendenan, nos mester carga e responsabilidad ey, no solamente como deber, pero como solidaridad y sosten pa nos pueblo”.

Parlamentario Rocco Tjon (MEP):

‘Fraccion di MEP no lo sostene mocion populista’

ORANJESTAD - Awe nos ta trata presupuesto di pais Aruba y e presupuesto di pais Aruba no a scapa di e virus. Ora nos wak cifranan di SVB y DRH por ehempel, nos ta papia di un perdida di 21 mil cupo di trabou directamente relaciona na turismo, 2 mil cupo di trabou parcialmente relaciona na turismo y dos mil cupo di trabou indirectamente relaciona na turismo. Alrededor di 25 mil cupo di trabou ta traduci den un perdida di 64 miyon florin pa luna na salario. Esaki excluyendo tipnan cu e trahadonan aki ta ricibi y nan beneficionan secundario di trabou. E impacto ta sumamente grandi y p’esey no tin luga pa mocionnan populista.

Rapport di Standard & Poors

Cu e impacto ta bay ta grandi pa Aruba nos sa. Si nos wak por ehempel e prome rapport cu Standard & Poor’s a emiti riba 17 di maart, specificamente riba cua paisnan ta mas vulnerabel pa loke ta e impacto di COVID-19 riba turismo, bo por wak cu nan ta menciona cu e isla cu lo wordo afecta mas fuerte ta Aruba. Nos GDP ta esun cu lo wordo afecta mas y segun e diferente “stress scenarios” nos ta e pais Caribense mas vulnerabel.

Mocion populista

Ta premira cu entrada di Gobierno lo baha cu 627 miyon florin y entrada relata na turismo lo baha cu 80%. Pues awe no ta momento pa haci politica populista. E medidanan di emergencia pa mitiga e situacion cu esunnan cu a perde nan entrada y empresanan a haya nan mes aden ta rekeri 1.3 biyon florin. E mocion di POR pa corta solamente 1000 florin pa un periodo di 3 luna no lo yuda pa remedia e situacion. Bo ta papia di un contribucion di 0.00023076%. No ta e momento pa hunga politica cu dolor di e 25 mil famianan cu a perde trabou.

Proceso

Otro luna Gobierno lo presenta e tercer fase cual ta encera e pasonan structural cu mester wordo tuma pa nos yega bek na e realidad prome cu e crisis. Y nos fraccion ta dispuesto pa entrega mucho mas cu simplemente 1000 florin pa 3 luna, cual ta fingi un ayudo superficial. Mas bien nos lo ta solidario pa entrega algo mucho mas significativo na bienestar di nos pueblo.

Pa conclui

Ta sumamente importante pa existencia di nos comunidad pa nos uni. Nos tur mester aporta, no solamente den finanzas, sino tambe den cordialidad, hermandad y convivencia di un pa otro. Y p’esey nos ta haci un apelacion fuerte na pueblo pa carga e responsabilidad colectivo y individual. Union combina cu Actitud y actuacion civico ta loke ta necesario pa nos por combati y vence e virus aki.

Parlamentario Endy Croes (MEP):

‘E escogencia cu Bo ta hasi unda Bo ta bay por ta e diferencia entre bida y morto’

ORANJESTAD - Parlamentario Endy Croes apoyando gobierno y tur ministernan pa e trabou duro cu nan a bin ta haciendo ultimo dianan lidera pa Minister Presidente Evelyn Wever Croes.

Trabounan duro:
Sigur no ta un trabou facil y tampoco ta algo cu ningun hende por a imagina. Dianan largo y nochinan sin drumi ta resultado di e luna di maart unda trabounan incansabel a wordo eherce pa preveni pueblo di lo peor. Corona Virus of Covid-19 manera e ta wordo yama a gara henter mundo di sorpresa. Awor ta concentrando riba salud pa scapa bida di cada conciudadano y na mesun momento un otro team ta calculando cuanto lo ta e ayudo financiero cu pais Aruba lo mester pa tur esunnan cu a wordo afecta pa brinda nan e ayudo necesario pa mantene Aruba den posibilidadnan pa sali for di e gara aki lo antes posibel na e momento cu nos supera e Virus aki.

Paisnan Internacional:
Parlamentario Endy Croes tin sentimentonan profundo pa e situacion cu ta pasando entre otro na Italia unda ayera por ehempel a conoce e record mas halto di 793 morto riba un dia durante weekend. Dialuna ultimo tabata tin un total di 601 hende a fayece na Italia. Nan sistema di salud a collapse y no por brinda asistencia na e cantidad di hendenan cu ta bira malo pareu. Italia a yega asina na un total di 6077 fayecido te cu dialuna 23 di maart y un total di 64.000 infectado. Entre otro tur pais rond mundo pero sigur nos madre patria Hulanda tambe ta den nos pensamento constantemente. E total di infectadonan na Hulanda a alcansa 5560 creciente rapido y e cifra di mortalidad a alcansa 276. Spaña y Francia tambe ta entre e paisnan den gara formal di e virus cu ta atacando mundo den su totalidad. Un total di 332.930 caso positivo worldwide te cu dialuna ultimo cu un mortalidad di 14510 persona. Solamente hunto nos mester combati e virus aki.

Mensahe pa e hobennan:
Parlamentario Endy Croes a sigui e update di WHO (World Health Organisation) hopi di cerca y WHO a manda un mensahe pa e hobennan rond mundo. Ta conoci cu hobennan no ta tuma e yamadanan di autoridadnan hopi na serio. “ Boso no ta invencibel y e Virus aki por percura pa Bo termina den hospital pa hopi siman y hasta por causa Bo morto”. “ Hobennan boso nan plama e mensahe aki pero no plama e virus”. E escogencia cu Bo ta haci unda pa bay por haci e diferencia entre bida y morto. Solaridad ta e yabi pa mundo sali victorioso y derota e virus aki. Ban mustra solidarismo pa un cu otro.

Prevencion y Union:
Parlamentario Endy Croes a accentua pa ban obedece instruccionnan di gobierno. Cada conciudadano mester carga su responsabilidad. Expertonan rond mundo atrabes di World Health Organisation a establece protocolnan pa conseha tur gobiernonan hunto cu nan profesionalnan riba e planeta aki pa purba controla e virus pa entre otro tur hende no bira malo pareu unda e departamento di salubridad na cualkier pais no lo por deal y carga e cantidad di pashentnan cu tur su consecuencianan fatal. P’esey e famoso palabra “Flatten the curve”. Tambe mester proteha tur nos hendenan di 60 aña of mas y hendenan cu ta sufri di un malesa cronico kendenan ta esnan mas vunerabel pa e virus aki. Pues practica social distancing y Fisical distancing. Pueblo ban respeta, ban cumpli y ban obedece. Laba Man cada rato , No sunchi, No brasa, tosa den elleboog. No bishita casnan di hende grandi y usa tecnologia pa combersa cu nan. Solaridad pa un cu otro. Union ta haci forsa. Awor mas cu nunka e arma principal pa combati y gana e bataya aki ta den Bo propio man. Ban cumpli awor. Toke de queda. Ban Keda Cas!

WASHINGTON (AP) — E agente di Trent Williams, starting left tackle di Washington pa hopi tempo, a manda un declaracion ayera pidiendo e team pa move Williams. Den e declaracion, Vince Taylor a cita 'diferencia no reconciliable' cu a pusha e relacion entre Williams y e team na e punto aki.

"Maske Trent Williams sem-per lo stima y respeta Dan Snyder, su compañeronan di team y fanaticonan di Washington redskins, e kier pa intercambia of transferi", Taylor a bisa. "Ta ora pa e organisacion actua den un manera cu ta den miho interes di tanto Williams como e team."

Williams a keda fuera di henter temporada 2019 pa motibo di un disputa cu oficina. Redskins no a intercambi'e prome cu deadline dia 29 di october, cu Taylor bisando cu nan tabata 'incapaz (of no dispuesto)' pa hacie.

"Redskins no a negocia den bon fe, y de hecho a duna exigencia inconsistente cu locual kier ricibi pa un intercambio", Taylor a bisa.

Banda di su reunion emocional cu reporteronan na cuminsamento di november ultimo, Williams no a papia mucho publicamente tocante su situacion. Taylor a bisa cu Williams no a busca caminda legal contra e team. "Esaki no ta parce un strategia exitoso", Taylor a bisa. "Hungadonan cu ta critico expresivo di e team si ta ser intercambia."

Washington dialuna a intercambia cornerback insatisfecho, Quinton Dunbar na Seattle Seahawks pa un pick den di cinco ronda.

'TDQ no ta pa haci y deshaci'

Bario De Vuyst: Storia cu a tira piedra contra polis ta falso

ORANJESTAD— Tres anochi pasa durante e di dos Toque de Queda (TDQ) na Aruba, a detene dos mama di famia, 3 menor di edad y 1 yiu mayor di edad pa a viola e TDQ. Por lo menos 2 di e detencionnan aki tin probabilidad halto di ta sin base legal, mirando cu a drenta cura pa detene un mama y yiu mientras nan tabata mira con un polis femenino tabata trapa cu pia riba lomba di su bisiña. Vanessa Tjon—Kock, kende a tuma over e mando policial, a bisa cu na De Vuyst a tira piedra contra polis, cual a instiga polis pa actua cu man duro. Sinembargo e habitantenan di e bario, kendenan tur tabata mirando kico tabata pasando, ta bisa cu esey ta un mentira.

Tanto Jerischka Albertsz como su yiu, kendenan tin apenas 3 luna bibando na De Vuyst, despues di a muda di otro region di nos isla, ta admiti cu maske ta berdad cu riba mas cu un ocasion ora polis a yega di drenta den e bario, ta tira piedra riba nan, esaki no a tuma luga e anochi cu a detene Albertsz, su yiu, kende a haya un tiro un tempo pasa y ainda tin e bala den su curpa, y su bisiña Emily Alleen hunto cu su 3 yiu menor di edad.

"Te ora nan a hiba mi warda, mi a tende e storia cu polis ta culpa e señora su yiu(nan) di tira piedra. Pero ami para riba mi stupi como mirones, niun momento mi no a scucha, ni mira cu baranca a dal un auto di polis", Albertsz a declara. Segun e mama cu recien a muda pa e bario cu tin mal fama, e cu un di su yiunan tabata mirando for di nan stupi, pues dilanti porta di cas mes, con polis tabata trata e señora cu tabata net di drenta su cas, despues di a pasa cerca un bisiña pa busca pildo pa dolor di cabes, cu maltrato y brutalidad, mirando cu a chok'e y lastr'e riba vloer. A actua mescos contra un yiu di dje cu a sali pa yuda su mama, segun Albertsz. Tur habitante cu tabata mirando a cuminsa grita di nan cas, kiermen cu ningun hende a subi caya. "E señora tabata net net canando pa su porta, tabata net 9 or y e polis a bin riba dje, bay cune suela y uza forsa. Mirando di mi porta berdad nos a bisa si por atende e señora un poco mas netjes, pasobra e tabata den drenta su cas. Nan a cuminsa aglomera y pidi mas hende uzando e argumento cu tabatin bombardeo di piedra. Di eynan nan a saca auto bin den nos direccion, pidi nos pa bay paden. Mane cu ami cu mi yiu a bira lomba, nan a lastra mi yiu prome, bay cu mi yiu homber, y na momento cu nan ta bay cune mi ta puntra pakico nan ta sacando e di dilanti e porta pa e entrada di e cura di e cas, bentando e y lastrando e."

Segun e señora, pa e motibo cu su yiu a haya un tiro na Noord, FCCA a dicidi di swich e famia di cas. Su yiu mester a haci un operacion y ainda e tin e bala den su curpa, e mama a indica. E señora a indica cu e agente policial cu a hib'e warda no a dun'e rason dicon a detene, ni tampoco kico su nomber of fam tabata. "Si mi tabata pafo, of si mi a bay altera cu nan tambe, mi ta bisa nan cu tin rason. Pero hasta ora mi djis duna man, nan ta troce mi. Ainda tras di tralie, bo ta wordo chercha y burla. E manera con nan tabata atende e muchanan atras, nan a kita nan paña ful. Pakico?", e señora ta puntra.

Señora Alleen di otro banda si a wordo gara pasobra e tabata dilanti su entrada di cura na momento cu a bira 9or, pero aki a hiba tambe su yiu mas grandi cu tabata purba mira con e por yuda su mama, mientras den caso di Alleen, polis a tuma su yabi di cas y drenta e cas di e señora y bay te ariba pa saca e muchanan cu tabata ayariba. "Ora nan a bin choca mi, ful e bario a reacciona. Net mi tabata drentando mi cura, nan a djis sali for di e auto bin choca mi, pusha mi na e auto, primi mi, pone nan elleboog na mi pecho, keda choca mi, choca mi, bisa mi pa cera mi smoel. Ni bon nochi nan a bisa. Nan a keda grita hende, 'bo no ta bay drenta e auto? Cera bo smoel!'".

Na momento cu a hiba Alleen cu su yiunan na warda, nan a pone kita tur paña, buk. Mescos a haci cu e yiunan. "Nan a keda ter un di mi yiunan pa e rabia pa nan por uza esey contra dje, pero el a keda trankil pasobra e sa kico nan kier a haci, e tin cabes. E sa con pa controla su mes. Ora nan a pasa nos cel nan a sigui hari nos. E polis no kier a duna nos su nomber, y e recherche cu a bin despues a bisa cu e por duna su inicial so.", Alleen a declara.

Ambos declaracion di e mamanan di famia tabata indica cu mayoria polis no tabatin material di proteccion contra e virus manera mascara, handschoen, of hand sanitizer riba nan. Nan a indica cu e cel na e warda unda a tene nan, tabata hole 'tur tipo di cos malo, sushi'. Alleen a bisa cu solamente e recherche cu a procesa nan despues tabatin handschoen bisti.

A tuma contacto cu Lito Laclé, vocero policial, cu varios pregunta referente e caso aki, pero Laclé no a contesta ningun pregunta. Ora nos reportero a yama, Laclé a nenga e yamada. A pidi e vocero suplente Liliana Rasmijn pa pidi su colega pa contesta, pero Rasmijn a bisa cu e no por obliga ningun hende pa contesta.

Volunteers sew masks for health workers facing shortages

Continued from Front

In this Sunday, March 22, 2020 photo, Bill Purdue, left, cuts pieces of fabric while Mike Rice sews them into face masks in Rice's autobody and upholstery shop in Washington, Ind.

Associated Press

And for those sitting at home worrying as the virus strains hospitals and the economy teeters, sewing masks makes them feel less helpless.

"Whatever it takes to get the job done, that's what I want to do," said Purdue, 57, whose daughter works at the women's hospital in Evansville, Indiana. He and his friend Mike Rice responded to a Facebook post last week from Deaconess Health System in Evansville asking the public for help.

The efforts mirror those in other countries, including Spain, where mask-making volunteers include a group of nuns and members of the Spanish Air Force. Around 500 masks a day are coming off sewing machines at the Paratroop School in Murcia, in the country's southeast, according to the Air Force's Twitter account.

In Belgium, what began as a one-woman operation about a week ago grew to a small army of home-sewing mask-makers within days. In Kosovo, inmates in a women's prison volunteered to make masks.

For most people, the new virus causes only mild or moderate symptoms, such as fever and cough. For some, especially older adults and people with existing health problems, it can cause more severe illness, including pneumonia. The vast majority recover.

But the virus is spreading rapidly and starting to max out health care systems in several cities.

Deaconess spokeswoman Pam Hight said the hospital system realized it could face a shortage if local infections skyrocket like they have elsewhere. So officials produced and posted a how-to video that has been shared across the country.

"We had people who wanted to ship them to us from all over the United States and we started saying, 'Please, please use them in your communities,'" she said. "It makes your heart warm; people are so good."

She said Deaconess expects to collect thousands of masks this week at an off-hospital site and sanitize them before distributing them to nurses and doctors or sending them to local nursing homes and homeless shelters.

Dartmouth-Hitchcock Medical Center, New Hampshire's largest hospital, is preparing kits with fabric and elastic and encouraging volunteers to sew face masks for patients, visitors and staff so medical-grade protective equipment can be conserved for front-line health care workers.

Providence St. Joseph's Health in the hard-hit Seattle area last week put together kits using special material and distributed them to people willing to sew them. But the company said Tuesday that it was discontinuing the effort because local manufacturing companies had begun making masks and face shields quickly and on a larger scale.

Federal officials had previously advised hospital workers to use surgical masks when treating patients who might be infected with coronavirus amid reports of dwindling supplies of fitted and more protective N95 respirator masks.

"If nurses quit or become too fatigued or even become ill themselves, then we don't have a frontline anymore," said Wendy Byard of Lapeer, Michigan. She began organizing friends to make masks after learning her daughter, a nurse at a suburban Detroit hospital, was told to wear the same mask all day.

Last week the Centers for Disease Control and Prevention quietly updated its guidance, saying hospitals that run low on surgical masks should consider ways to reuse them or to use them through an entire shift. And if hospitals run out, the CDC said, scarfs or bandanas could be used "as a last resort," though some health officials warned cloth masks might not work.

Mary Dale Peterson, president of the American Society of Anesthesiologists and chief operating officer at a Corpus Christi, Texas, children's hospital, said she declined volunteers' offers to make masks. She said construction and manufacturing industries instead should donate or sell the high-grade masks they have to hospitals.

"It would be only an extremely, extremely last resort that I would have my staff" wear homemade masks, she said. "I really hope it doesn't get to that point in the U.S."

At the Missouri Quilt Museum in Hamilton, Missouri, board members asked local hospitals if masks were needed and "they emphatically said yes," said director Dakota Redford. Soon other health care providers, including ambulance crews and nursing homes, were requesting masks.

"This has been a true grassroots effort that has exploded across the country in the quilting world," she said.

Businesses also are stepping up.

Crafts chain Joann Stores is making all of its 800-plus stores available for up to 10 people at each location to sew masks and hospital gowns, offering sewing machines and supplies, spokeswoman Amanda Hayes said. ❑

Census mails out more notices, judge tosses lawsuit by group

By MIKE SCHNEIDER
Associated Press

Residents have begun receiving the U.S. Census Bureau's request for information receiving letters with a census identification number to answer questions about their households online.

Associated Press

ORLANDO, Fla. (AP) — The U.S. Census Bureau has mailed out a second round of notices reminding people to participate in the 2020 census, officials said Tuesday.

The bureau also said it now has more than 37,000 temporary workers and hopes to hire as many as 500,000 temporary workers to help with its once-a-decade head count.

Bureau officials said last week they may hire even more to make up for lost time due to the spread of the novel coronavirus. The Census Bureau last week suspended field operations until the start of April, and pushed back the deadline for finishing the count by two weeks to mid-August.

Meanwhile, a federal judge in New York has tossed out a lawsuit from an advocacy group and a small New York city that argued the Census Bureau wasn't devoting enough resources to the 2020 count.

The lawsuit from the Center for Popular Democracy Action and the City of Newburgh accused the Census Bureau of reducing staffing and offices for the 2020 census compared to earlier counts. The lawsuit demanded that the agency spend more money, arguing not doing so would result in an undercount of minority groups.❑

U.S. climate activists to livestream Earth Day due to virus

By MARTHA IRVINE
Associated Press

CHICAGO (AP) — As the coronavirus causes shutdowns across the U.S., a coalition of youth-led organizations that had planned massive marches for the 50th anniversary of Earth Day next month are now planning a three-day livestream event instead, organizers said Tuesday.

" Earth Day Live " will happen April 22-24 and will include speakers, voter registration, protests against financial institutions that support the fossil fuel industry, and entertainment.

The event will be accessible on computers and mobile devices in the hopes that it will encourage engagement and action among people who are secluded at home and who may have planned to march in Washington and other places.

"It's a time to really rethink our strategy," said Katie Eder, the 20-year-old executive director of the Future Coalition, one of nine youth-led organizations that are coordinating the event.

"We are really looking at this as a way to reimagine what a social movement can look like in a digital age."

The first Earth Day, the brainchild of the late Sen. Gaylord Nelson of Wisconsin, happened in 1970 and sparked an environmental movement that led to the creation of the Environmental Protection Agency and many laws to protect water, air and wildlife.

While led by youth organizations, including the Sunrise Movement, Zero Hour and Amazon Watch, the invent is intended to be intergenerational, with an eye on building on momentum from a massive global climate march in September.

Members of these groups said they are very much focused on the crisis at hand — the coronavirus — but they say climate change also will affect vulnerable populations the most.

"It's not just about the environment and the climate," said 17-year-old Naina Agrawal-Hardin, of the Sunrise Movement.

"It's also about building a society and an economy that's going to take care of the people who've been affected by this crisis, the people who are on the front lines of this crisis, whether that's through health care efforts or economic efforts."❑

'A bullet train': Virus peak may come soon, swamp hospitals

By JOHN MINCHILLO and MARINA VILLENEUVE
Associated Press

NEW YORK (AP) — Gov. Andrew Cuomo sounded his most dire warning yet about the coronavirus pandemic Tuesday, saying the infection rate in New York is accelerating and the state could be as close as two weeks away from a crisis that sees 40,000 people in intensive care.

Such a surge would overwhelm hospitals, which now have just 3,000 intensive care unit beds statewide.

The rate of new infections, Cuomo said, is doubling about every three days. While officials once projected the peak in New York would come in early May, they now say it could come in two to three weeks.

"We are not slowing it. And it is accelerating on its own," he said during a briefing at the Jacob K. Javits Convention Center. "One of the forecasters said to me we were looking at a freight train coming across the country. We're now looking at a bullet train."

New York officials have been racing to essentially double their hospital capacity to up to 110,000 beds. Cuomo now said there could be a peak need of 140,000 beds.

There were more than 25,000 positive cases in New York state and at least 210 deaths, according to state figures. Most of the cases and deaths have been in New York City, an emerging worldwide hotspot in the outbreak.

New York officials are planning to add at least 1,000 temporary hospital beds at the Javits Center for non-COVID-19 patients and thousands of beds elsewhere. But Cuomo said "they're nowhere near" the number that will be needed. The state also faces shortages of ventilators and protective equipment for medical workers.

New York has 7,000 ventilators. Cuomo called for a national push to send ventilators to New York now, saying the city needs 20,000 of them in a matter of weeks. He said the equipment could then be redeployed to different areas once the peak passes in New York.

"I will take personal responsibility for transporting the 20,000 ventilators anywhere in this country that they want, once we are passed our apex," Cuomo said. "But don't leave them sitting in a stockpile."

Peter Pitts, a former associate commissioner at the Food and Drug Administration and president of the New York-based Center for Medicine in the Public Interest, said that ventilators — about the size of two old VCR machines — are certainly portable. But he said there would need to be a regional or national coordinator of medical products "to make sure that the goods needed are where they need to be."

THE TOLL

The death toll from COVID-19 has left people in mourning around the state.

In Brooklyn, Dez-Ann Romain, 36, principal of a school for students who had struggled in traditional high schools, was remembered as a dedicated educator who gave her all to her students and staff.

In the Albany area, 92-year-old technology pioneer Walter Robb died just days after being admitted to the hospital with a severe cough and being put on a respirator. Robb had spent years working at General Electric Co., pushing advancements in imaging equipment used in health care.

Alan Finder, a former reporter at The New York Times, was remembered for his decency and kindness. Current Times reporter Kevin Sack said on social media that Finder was a terrific reporter, a calming presence and one of the "menschiest" guys around. ❑

China to lift lockdown in most of virus-hit Hubei province

By KEN MORITSUGU
Associated Press

BEIJING (AP) — Chinese authorities said Tuesday they will end a two-month lockdown of most of coronavirus-hit Hubei province at midnight, as domestic cases of what has become a global pandemic subside.

People with a clean bill of health will be allowed to leave, the provincial government said, easing restrictions on movement that were unprecedented in scale. The city of Wuhan, where the virus was first detected in December, is to remain locked down until April 8.

China barred people from leaving or entering Wuhan beginning Jan. 23 in a surprise middle-of-the-night announcement and expanded that to most of the province in succeeding days. Trains and flights were canceled and checkpoints set up on roads into the central province.

The drastic steps came as the coronavirus began spreading to the rest of China and overseas during the Lunar New Year holiday, when millions of Chinese travel.

The virus raged for weeks in Wuhan, the provincial capital, and surrounding cities. Hospitals overflowed, and temporary ones were hastily set up to try to isolate the growing number of infected patients. More than 2,500 people have died in Wuhan out of 3,270 nationwide.

The outbreak has since been brought under control, and Hubei has seen almost no new infections for more than a week.

The move to end the lockdown showed the authorities' apparent faith in the success of the drastic measures as they try to kick start the world's second-largest economy and put money in the pockets of workers, many of whom have gone weeks without pay. It remained unclear, however, which cities and provinces, including Beijing, the capital, would allow people from Hubei to enter their jurisdictions.

About 120,000 migrant workers, including many who had made the traditional trip home to Hubei for Lunar New Year, have already been allowed to leave in recent days on special buses and trains, according to Chinese media reports. The reports said manufacturing centers such as Guangdong and Zhejiang province are open to people from Hubei,

Outside of Hubei, the government says work has restarted on about 90% of major public construction projects across the country. While many migrant workers remain trapped by travel restrictions and quarantines, factories are operating again, though not at full capacity.

In the Beijing area, the city zoo and parts of the Great Wall reopened this week, though they required advance reservations to limit the number of visitors. Some restaurants were reopening for business, some on the condition that customers do not sit facing each other.

At the Xibei restaurant inside a mall in eastern Beijing's Shuangjing neighborhood, a line formed at around 11 a.m. Tuesday for the lunch opening, although managers said they expected to serve only around 140 customers, down from the usual daily number of 900 before the virus outbreak.

Half of the establishment's 20 tables had "closed" signs on them to help keep a distance between customers, while food delivery workers rushed in and out with orders of grilled beef and lamb, noodles, pancakes and other northern Chinese dishes.

Wu Lin, who works in cosmetics, was dining out for the first time since restrictions were imposed because of the outbreak.

"Since (the restaurant) can open at the moment, I believe their prevention and control is fairly good," Wu said.

"For example, they check the temperature of every customer and staffer. It gives us a sense of safety."

Officials have turned their attention to the threat of the virus entering from abroad, with almost all new cases being recorded among people arriving from overseas. China's National Health Commission on Tuesday reported 78 new coronavirus cases, among which 74 were imported. Starting Wednesday, Beijing will require everyone coming from overseas to be tested for the coronavirus on top of being quarantined for 14 days. ❑

Europe eyes smartphone location data to stem virus spread

The Czech Republic has become the first European country to announce plans to deploy a powerful but potentially intrusive location-tracking tool for fighting the coronavirus pandemic, as others consider similar moves bound to put public health in conflict with individual privacy.

The effort announced Tuesday by the head of a Czech government crisis team will use real-time phone-location data to track the movements of virus carriers and people they come in contact with. The aim is to pinpoint where infections are flaring up, how they are spreading and when health authorities need to order quarantines and other containment measures to limit the spread of COVID-19. Britain, Germany and Italy are among countries similarly considering enlisting individual location data in the fight against the virus. That worries privacy advocates, who fear such ubiquitous surveillance could be abused in the absence of careful oversight, with potentially dire consequences for civil liberties. "These are testing times, but they do not call for untested new technologies," a group of mostly British activists said in an open letter Monday to the country's National Health Service. The letter noted that such measures could put human rights at risk and may not work.

Czech officials said Tuesday that they will use data from wireless carriers for a voluntary app in which the movements of people who test positive for the virus will be mapped out and the people with whom they have intersected in the previous five days would be individual contacted by phone so that they can get tested. Officials said they expect to launch in mid-April. The new tool marks a substantial departure from existing European disease-surveillance efforts, which have focused on tracking people's movements with aggregated phone location data designed not to identify individuals. Italian police also began mobilizing drones on Monday to enforce restrictions on citizens' movements.

But there is a powerful argument in favor of more powerful digital tools, even if they shred privacy: They have been used by several of the Asian governments most successful at containing the pandemic, including in China, Taiwan, Hong Kong, South Korea and Singapore.

Last week, Israel took the most extreme step yet by charging its Shin Bet domestic security agency with using smartphone location data to track the movements of virus carriers for the prior two weeks, using historical data to identify possible transmission. Epidemiologists call this process "contact tracing," which has traditionally relied on infected people's memories to identify individuals with whom they came into contact.

So far, there's no indication the U.S. government plans to track identifiable individuals for disease surveillance. A spokesperson for the White House Office of Science and Technology Policy said it was not currently working on such an app. The Centers for Disease Control and Prevention did not immediately respond to questions from The Associated Press.

The White House has reached out to Big Tech companies for help in the worst pandemic in a century, but Google and Facebook both told the AP they are not sharing people's location data with governments.

A Google spokesperson said the company was exploring ways to use aggregated location information against COVID-19, but added that the location data Google normally gathers from phone users isn't accurate enough for contact tracing.

An AT&T spokesperson said the company was not sharing real-time location tracking with U.S. government virus-trackers. Sprint declined to comment and Verizon did not immediately respond to a query.

Israel's effort and the newly announced Czech initiative go well beyond what Europe's governments are currently getting from wireless carriers to identify "hot spots" of disease and human concentration. While legal safeguards exist in most democracies to protect digital privacy, the danger of the coronavirus could quickly compel policymakers to override them.

On Friday, the European Union's Data Protection Authority cautiously endorsed putting privacy on pause during the public health emergency.❑

DHAKA, Bangladesh (AP) — Bangladesh's government will release imprisoned former Prime Minister Khaleda Zia for six months on the condition that she stays at home and does not leave the country, the law minister said Tuesday.

Anisul Huq said Zia, 74, is being released on humanitarian grounds considering her age.

Zia, the country's opposition leader, was sentenced to 17 years in prison in two corruption cases. Her Bangladesh Nationalist Party says the cases were politically motivated. The government of Prime Minister Sheikh Hasina, Zia's archrival, denies the allegation.

Zia's party says she is seriously ill with ailments including respiratory problems and arthritis. She is currently being treated in a prison cell at Bangabandhu Sheikh Mujib Medical University in Dhaka. ❑

With billions at stake, banks try to save stunned borrowers

By KEN SWEET

Associated Press

NEW YORK (AP) — Tarred as villains during the 2008 financial meltdown, banks of all sizes are trying to help out Americans reeling from the economic crisis caused by the coronavirus outbreak.

Banks are scrambling to put into place loan forgiveness and relief programs, working to keep their customers from panicking or falling into financial ruin. They have a vested interest preventing millions of people and businesses from defaulting on hundreds of billions of loans at once, something that would do significant damage to the banks' own finances.

Unlike 2008, banks are not the cause of economic crisis gripping the nation. And banks now have plenty of capital on hand to handle this crisis, economists say.

But the potential for millions of their customers to default on credit cards, small business loans and mortgages means banks have to do something to protect borrowers, many of whom went from having a job or a business to nothing, sometimes in a matter of days.

Husband and wife team Shari and Larry Kaynen were forced last week to close their chain of six high-end clothing stores called Shari's Place, based in Greenvale, N.Y. They are now working with their bank to rework their long-term debt into new terms with lower interest rates that will help their cash flow.

Larry Kaynen said that their bank is polling all of its retail industry clients to figure out how they are going to stay in business for week with "zero" sales.

"This could mean a lot of ruin to a lot of small business" said Shari Kaynen. "I am not corporate America. I have millions of dollars worth of merchandise, but I still have to pay my landlord rent."

The aid the bank provide varies in generosity depending on the bank, however. Some are just allowing customers to defer payments, meaning interest is still accumulating while in these programs. Others have instituted forbearance programs, where there will be no penalty for a customer who wants to hold off paying debts for 30 or 60 days.

Huntington Bancshares, a $100 billion bank operating mostly in the Midwest, has instituted 30-day deferral programs for any borrower who asks for help — no paperwork or questions asked — and is reaching out to customers asking if they need more time.

They are extending the deferrals 30 days at a time, if necessary.

"There is a place for our industry, in this crisis, to do all we possibly can to mitigate the damage that is happening," said Stephen Steinour, Huntington's chairman and CEO.

The bank has even moved employees at its branches — which are operating under reduced or restricted hours to protect against virus transmission — into new roles like calling borrowers or potentially even helping customers refinance their mortgage.

The biggest banks are taking similar actions. Bank of America is allowing customers to defer payments across all of its products and is not reporting any negative activity like missed payments to the credit bureaus. So has JPMorgan Chase, Wells Fargo and Citigroup.

Smaller banks are also acting to help customers. Southern Bancorp, with roughly $1.5 billion in assets headquartered in Arkansas, is modifying loans as quickly as possible or charging only interests on loans where it can for small business borrowers or customers.

"We're telling our folks, 'Be safe. Be calm. We're here to help however we can,'" said Darrin Williams, CEO of Southern Bancorp.

Banks are putting these programs in place partly because they would be facing a massive number of defaults and bad loans on their books without them - causing billions of dollars worth of paper losses to the banking sector. Bank stocks have been hit particularly hard this year as they are considered a proxy for the overall economy. The KBW Bank Index, composed of banks from across the country, is down 45% this year alone compared with the 15.5% decline of the S&P 500.

Further, the credit reporting companies like Experian and Equifax would be swamped with negative credit reporting data, which would destroy the credit scores of millions of Americans who were paying their bills on time but suddenly find themselves out of a job. That would make giving loans in the future to these impacted borrowers more difficult.

Lastly there's the politics.

The Great Recession was caused by careless banks making too many bad loans, which ultimately required U.S. taxpayers to backstop or bail them out. The bailouts of 2008 and 2009 have not been forgotten by the industry.

While other industries like the restaurants, hotels and airlines have petitioned Washington for aid in the aftermath of the coronavirus-fueled economic meltdown, the banks have largely remained on the sidelines - asking for changes to how bank capital is measured during a crisis and other minor issues. The CEOs of the big banks went to the White House earlier this month to meet with President Trump with a "we are here to help."

While the banks are not asking for large things in this bailout bill, they know a lot is at stake.

By proxy, banks would benefit from any government aid to companies because those companies would in turn continue paying their bills.

"We are in a strong financial position, and because we are doing so well, we can hopefully provide some relief," Williams said.

While the banks are not asking for a government bailout this time, they have benefited from the recent moves by the Federal Reserve, which has slashed borrowing costs to zero and instituted bond-buying programs to help banks quickly offload high-quality assets for cash. quickly. The Federal Reserve has expanded that to include things like commercial paper, corporate debt and other assets in a way not seen since the Great Recession.

While banks are taking their own actions, State and federal regulators are also stepping in to protect borrowers.

Governor Andrew Cuomo of New York imposed a 90-day moratorium on mortgage payments if a borrower has been financially struck by the outbreak. The Department of Housing and Urban Development has imposed a 60-day moratorium on all evictions and foreclosures on all homes with a loan through the Federal Housing Administration, or FHA.❑

Albert Uderzo, a creator of French hero Asterix, dies at 92

PARIS (AP) — Albert Uderzo, one of the two creators of the beloved comic book character Asterix, who captured the spirit of the Gauls of yore and grew a reputation worldwide, died on Tuesday. He was 92.

The French press quoted family members as saying that Uderzo died of a heart attack in the Paris suburb of Neuilly.

Asterix, portrayed as a short man with a droopy mustache always wearing a helmet with wings, was created in the early 1960s by Uderzo and Rene Goscinny. The character lived in a village in Gaul, present-day France, resisting Roman conquerors, along with his inseparable big-bellied friend, Obelix.

"Albert Uderzo died in his sleep at his Neuilly home of a heart attack with no links to the coronavirus," the French press quoted his son-in-law, Bernard de Choisy, as saying. "He had been very tired for several weeks."

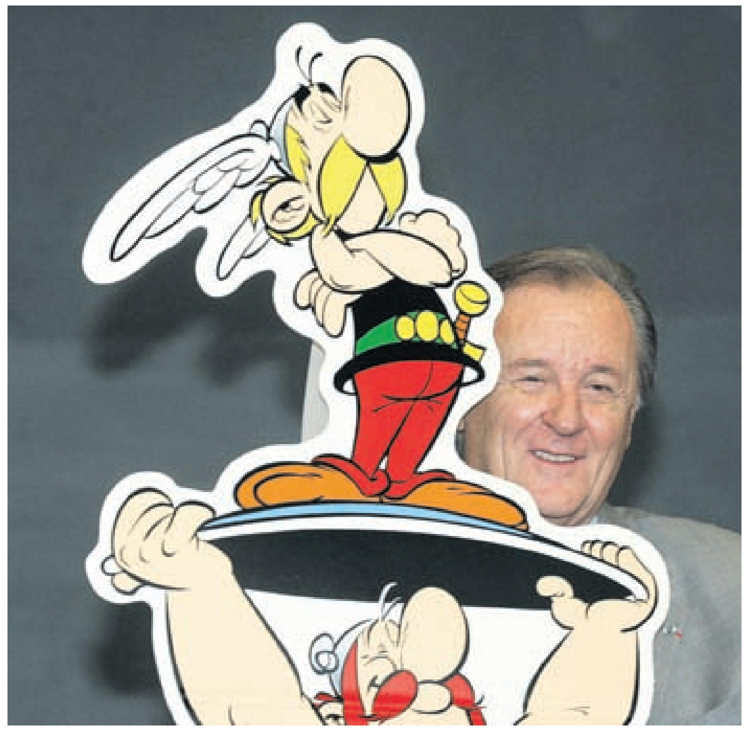

French Culture Minister Franck Riester said that Uderzo "found the magic potion," referring to his spirit, craftsmanship and long hours of work. Riester may also have been making a reference to the famous magic potion in the Asterix series, which gave the hero and his fellow villagers temporary superhuman strength.

"Supreme nobility, he accepted that his heroes survive him for the happiness of the public," Riester said.

Uderzo initially illustrated the characters created along with writer Rene Goscinny. Together, they created 24 comic books. After Goscinny's death in 1977, Uderzo also took over the comic books' writing duties, deciding to continue without his creative partner.

Goscinny's daughter, Anne, called the two men "brothers" and praised Uderzo's "courage" for continuing without his collaborator.

"They were as different as fire and water, but they lived something that few among us could live," she told the French daily Le Parisien. "They were the kind of friends you don't often have in life."

In this Oct.23, 2005 file photo, French author and illustrator Albert Uderzo waves from behind a cardboard cutout showing his comic heroes Asterix and Obelix at the 57th Frankfurt Book Fair in Frankfurt, Germany.

Associated Press

Uderzo, whose father was an Italian immigrant, was born on April 25, 1927, in France's Marne region, but grew up outside Paris. As a child, he was captivated by Walt Disney characters, notably Mickey Mouse, one of the inspiration of his own artistic talents.

After numerous jobs and referrals, he met Goscinny when he was 24. An instant friendship developed "and we decided to remake the world with all the thoughtlessness and the boldness of our youth," Le Monde quoted Uderzo as saying in his memoirs.

After collaborating on other projects for some nine years, "Asterix Le Gaulois" appeared in 1961.

Fans offered thanks on social media and recollections of childhood memories reading the Asterix comic books whose fan base includes adults.

The Asterix books have been translated into dozens of languages.

Asterix-based spinoffs include movies and a theme park outside Paris that draws tens of thousands of fans of the iconic resistance hero and his mighty sidekick, Obelix.❑

American continent strucked by epidemics

Episode 61- LXI

ORANJESTAD — Way before Columbian times, a variety of diseases existed in the Americas. The limited populations and interactions between those populations, who had or showed symptoms of a contagious illness, in contrast to places like Europe, hampered the development of widespread deadly diseases throughout the continent.

One notable disease of American origin is syphilis aside from that, most of the major epidemic diseases we are familiar with today originated in the Old World. The Native American era of limited disease ended with the arrival of Europeans in the Americas and the Columbian exchange of organisms, including those that cause human diseases. European diseases and epidemics are still present among Native American populations today; these had enormous influence especially on their past generations. European diseases devastated entire nations and their tribes.

Because Native American populations were not previously exposed to most diseases introduced by the Europeans, populations rarely had built up individual or population immunities to those diseases. In addition, Europe's position as a crossroads between many different peoples, many of whom were separated by hundreds, if not thousands, of miles through things like constant war spreading afflictions throughout the continent and the Silk Road bringing diseases from the East—resulted in that Europeans developed immunity to a large variety of diseases. Therefore, the diseases brought by the Europeans, which had little effect on them as a population, greatly affected, and often continue to affect, Native Americans. This phenomenon is known as the virgin soil effect.

Numerous diseases were brought to The Americas, including smallpox, bubonic plague, chickenpox, cholera, the common cold, diphtheria, influenza, malaria, measles, scarlet fever, sexually transmitted diseases, typhoid, typhus, strings of tuberculosis, and pertussis. Each of these brought destruction through sweeping epidemics, involving disability, illness, and extensive deaths. Arriving Europeans infected with diseases either possessed them in a dormant state or were not adequately quarantined, allowing the diseases to spread into epidemics. The trade of Native American captives and the use of commercial trade routes contributed to the spread of disease.

The diseases brought by Europeans are not easily tracked, since there were numerous outbreaks and all were not equally recorded throughout the Americas and by the end of 1494, disease and famine had claimed two-thirds of the Spanish settlers and their Caribbean counterpart, the Taino`s. The most destructive disease brought by Europeans was smallpox. The first well-documented smallpox epidemic happened in 1518.The Lakota Indians called the disease the running face sickness. Smallpox was lethal to many Native Americans, bringing sweeping epidemics and affecting the same tribes repeatedly.

Certain cultural and biological traits made Native Americans more susceptible to these diseases. Emphasis placed on visiting the sick led to the spread of disease through continual contact. Native Americans first exposed to these diseases also had an approach to illness relating primarily to religious beliefs. Their societies typically believed that disease is caused by either a lack of charm use, an intrusion of an object by means of sorcery, or the free soul's absence from the body. Disease was understood to enter the body if one is not protected by the spirits, as it is a natural occurrence. Religious powers were called on to cure diseases in the practice of shamanism.

Between 1837 and 1870, at least four different epidemics struck the Plains tribes. When Plains tribes began to learn of the "white man's diseases", many did intentionally avoided contact with them and their traded goods. But the lure of trade goods such as metal pots, skillets, and knives sometimes proved too strong, leading people to trade with the white newcomers anyway and inadvertently spread disease to their villages. Our island has also its history of coping with many diseases. There was a claim that one disease had come in a banquet that covered a sick person on a ship. Others carried by a new arrival and others even by insects.

Hygiene and prudence are in your hands. Today again we are confronted with many serious threat of invisible enemies and their imperil menaces to our health. Stay healthy, strong and solitaire for a while and for the sake of the good times we've had.
